110.06 APPORTIONMENT OF NET PROFIT.

(1) Except as provided in subsection (6) of this section, net profit shall be apportioned as follows:

(a) For business entities with both payroll and sales revenue in more than one (1) tax district, by multiplying the net profit by a fraction, the numerator of which is the payroll factor, described in subsection (2) of this section, plus the sales factor, described in subsection (3) of this section, and the denominator of which is two (2); and

(b) For business entities with sales revenue in more than one (1) tax district, by multiplying the net profits by the sales factor as set forth in subsection (3) of this section.

(2) The payroll factor is a fraction, the numerator of which is the total amount paid or payable in the tax district during the tax period by the business entity for compensation, and the denominator of which is the total compensation paid or payable by the business entity everywhere during the tax period. Compensation is paid or payable in the tax district based on the time the individual's service is performed within the tax district. Wages made by third party payors and/or for leased employees must be included in the wage apportionment of the person who has control of the actions and the work product of the employees.

(3) The sales factor is a fraction, the numerator of which is the total sales revenue of the business entity in the tax district during the tax period, and the denominator of which is the total sales revenue of the business entity everywhere during the tax period.

(a) The sale, lease, or rental of tangible personal property is in the tax district if:

1. The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within the tax district regardless of the f.o.b. point or other conditions of the sale; or

2. The property is shipped from an office, store, warehouse, factory, or other place of storage in the tax district and the purchaser is the United States government.

(b) Sales revenues, other than revenue from the sale, lease, or rental of tangible personal property or the lease or rental of real property, are apportioned to the tax district based upon a fraction, the numerator of which is the time spent in performing such income-producing activity within the tax district and the denominator of which is the total time spent performing that income producing activity.

(c) Sales revenue from the lease or rental of real property is allocated to the tax district where the property is located.

(4) If either the payroll factor or sales factor under this subsection is absent, then the apportionment percentage shall be equal to the remaining percentage determined under subsections (2) or (3) of this section. A factor is not deemed to be absent merely because none of the business entity's sales revenue arose inside the Louisville Metro area or because none of the wages or compensation paid by the business entity were for services performed or rendered inside the Louisville Metro area.

(5) The apportionment provisions provided above, shall be presumed to determine fairly and correctly the business entity's net profits from activities conducted in Louisville Metro.

(6) If the apportionment provisions of this section do not fairly represent the extent of the business entity's activity in Louisville Metro, the business entity may petition for or

the Commission may require, in respect to all or any part of the business entity's business activity, if reasonable:

- (a) The exclusion of any one (1) or more of the factors;
- (b) The inclusion of one (1) or more additional factors which will fairly represent the business entity's business activity in the tax district; or
- (c) The employment of any other method to effectuate an equitable allocation and apportionment of net profits.
- (d) Separate accounting.

(7) If an alternate method of apportionment is approved by the Commission, the business entity must continue to file under the alternate method until given permission to change by the Commission.

110.07 FILING OF ANNUAL NET PROFIT RETURN.

(A) Every business entity subject to the occupational license tax imposed by this ordinance shall, on or before the fifteenth day of the fourth month following the close of each year, make and file with the Commission a return, on a form furnished by or obtainable from the Commission setting forth the aggregate amount of net profits during the preceding year with such other pertinent information as the Commission may require, including, but not limited to, federal income tax returns and schedules. The return shall also show the amount of the occupational license tax imposed by this ordinance, and the business entity shall pay to the Commission by the due date of the return the full occupational license tax due as shown thereon after credit is given for any prior estimated payments or credits. Provided, however, that where the fiscal year of the

business, entity differs from the calendar year and the business entity files a federal income tax return for such other fiscal period, the occupational license tax shall be measured by the net profits of the fiscal year, and where the return is made for a fiscal year or any other period different from a calendar year, the said return shall be made on or before the fifteenth day of the fourth month following the end of the fiscal year or other period.

(B) Any return required to be filed hereunder shall be considered to have been timely filed if it is postmarked or hand-delivered to the offices of the Commission on or before the due date or, in the event the due date is a Saturday, Sunday or Metro Government legal holiday, if it is postmarked or hand- delivered to the offices of the Commission on the next day which is not a Saturday, Sunday or a Metro Government legal holiday.

(C) Notwithstanding the provisions of subsection (A) hereof every business entity, other than a sole proprietorship, shall make quarterly estimated payments on or before the fifteenth day of the fourth, sixth, ninth and twelfth month of each fiscal year if the business entity's aggregate liability for occupational license taxes, measured by net profits, due to the Metro Government, the Mass Transit-Trust Fund and the school boards for the taxable year exceeds five thousand dollars (\$5,000).(D) The quarterly estimated tax payment required under subsection (C) shall be based on the lesser of:

- (a) Twenty-two and one-half percent (22.5%) of the current taxable year tax liability;
- (b) Twenty-five percent (25%) of the preceding full year taxable year tax liability; or

(c) Twenty-five percent (25%) of the average tax liability for the three (3) preceding full year taxable years' tax liabilities if the tax liability for any of the three (3) preceding full taxable years exceeded twenty thousand dollars (\$20,000).

(E) Any business entity that fails to submit the minimum quarterly payment required under subsection (D) of this section by the due date for the quarterly payment shall pay an amount equal to twelve percent (12%) per annum simple interest on the amount of the quarterly payment required under subsection (D) of this section from the earlier of:

(a) The due date for the quarterly payment until the time when the aggregate quarterly payments submitted for the taxable year equal the minimum aggregate payments due under subsection (D) of this section; or

(b) The due date of the annual return.

(F) The provisions of this section shall not apply to any business entity's first full or partial taxable year of doing business in Louisville Metro, or any first taxable year in which a business entity's tax liability exceeds five thousand dollars (\$5,000).

(G) At the election of the business entity, any installment of the estimated tax may be paid prior to the date prescribed for its payment.

(H) In the case where the tax computed under the provisions of this article is less than the amount which has been declared and paid as estimated tax for the same taxable year, a refund or credit, if a credit is requested, shall be made upon the filing of a return.

(I) Overpayment, resulting from the payment of estimated tax in excess of the amount determined to be due upon the filing of a return for the same taxable year, may be credited against the amount of estimated tax determined to be due on any declaration filed for the next succeeding taxable year, or for any deficiency or nonpayment of tax for any previous taxable year.

(J) No refund shall be made of any estimated tax paid unless a complete return is filed as required by this article. (K) Every business entity making payments of six hundred dollars (\$600.00) or more to natural persons other than employees (non-employee compensation payments) for services performed within Louisville Metro is hereby required to maintain records of such payments and to report such payments to the Commission by February 28 of the year following the close of the calendar year in which the non-employee compensation was paid.

(L) However, any business entity that makes non-employee compensation payments in excess of six hundred dollars (\$600.00) to more than one hundred (100) natural persons may comply with the requirements of this section by submitting copies of federal Form 1099 reporting non-employee compensation paid to natural persons at an address in Louisville Metro. Such business entity, is not required to identify services performed within Louisville Metro.

(A) The Commission may grant any business entity an extension of time for the filing of its return, of not more than six (6) months (unless a longer extension has been granted by the Internal Revenue Service and agreed to by the Commission).

(B) Such extension shall be by written request filed with the Commission by the business entity or his designated representative made on or before the date upon which the return is due and must be accompanied by an occupational license tax payment in an amount not less than 90% of the total occupational license tax as finally determined or estimated payments of 90% of the license tax obligation must be on file at the time the extension is requested. A copy of the federal extension can be filed with the Commission. However, a filing of a request with the federal or state government does not satisfy the requirement of written request to the Commission.

(C) If the time for filing a return is extended, the business entity shall pay, as part of the tax, an amount equal to twelve (12%) percent interest on the tax shown due on the return, but not previously paid, from the time the tax was due until the return is actually filed and the tax paid to the Commission.

(2) Credits related to adjustments resulting from a federal audit shall be limited to years covered by the audit or to related audit issues covered by the audit. Refunds will only be paid for credits timely requested within the two year limitation contained in this section, and only if additional obligations for other years in the audit period have been satisfied; otherwise, the taxpayer will receive a credit to be first applied to all other obligations in the audit period and second to future obligations.
